

AccuFormTM
MOLAR BANDS
PRE-FORMED BANDS
by Modern Orthodontics

*Ideally Tempered
Laser Marking
Internally Sand Blasted
Rolled Edges*

AccuForm™
MOLAR BANDS
PRE-FORMED & ANATOMIC

Micro-Etched Interior Surface
Ensures maximum retention

Straight Interproximal Wall
Makes band seating easy

Ideally Tempered
For easy contouring

Rolled Edges
No sharp edges maximum patient comfort

Anatomically Contoured
Fast, placement and accurate fit

Permanent Marking
For easy identification

Sturdy box packaging

All four quadrants bands in one box

Standard Preweld Position

Buccal Attachments to Molar Bands

The main archwire slot is centered occlusal/gingivally, and the hook is always placed towards the gingiva.

Standard angulation is always 0°, which means the main slot runs parallel with the occlusal margin of the band.

The mesial face of the tube bisects the buccal cusp on the maxillary arch, while on the mandibular arch the main body of the tube is centered on the buccal indent.

Lingual Attachments to Molar Bands

Standard positioning for lingual attachments are as follows for each attachment:

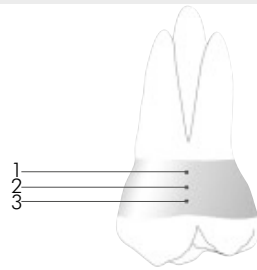

Lingual Sheaths and Cleats are centered mesial/distal as well as occlusal/gingival.

Buttons are centered on the mesial cusp and are offset 1mm towards the occlusal margin from the center of the band.

We offer standard and custom pre-welding services to meet all your practice needs. Using the chart below, choose the position of pre-welds that suits your practice needs.

Step 1: Choose Your Mesial / Distal Positioning	Upper Molar		Lower Molar
<p>1/3 Mesial Two millimeters of forward (mesial) placement of the buccal tube on the band will add approximately 10 degrees of distal offset.</p>		1/3 Mesial	
<p>Standard The standard welding position is designed to deliver the distal offset manufactured into the buccal tube.</p>		Standard	
<p>1/3 Distal Two millimeters of backward (distal) placement of the buccal tube on the band will subtract approximately 10 degrees of distal offset.</p>		1/3 Distal	

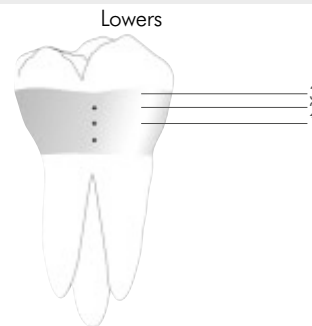

Step 2: Choose Your Height Placement

Uppers

Archwire Location

- 1 = 1/3 Gingival
- 2 = Standard
- 3 = 1/3 Occlusal

Please read before you fill

1. Plain bands or bands with Upper Double Headgear and Lower Single Tubes are standard and can be ordered in any quantity in multiples of 5pc. Minimum order is 5pc
2. For any other combination of tubes or bands with lingual attachments the order should be for minimum of 200pc total and would be considered a custom order.
3. If your order exceeds 400pc we will ship it packed in band tray. For orders less than 400pc, zip-lock bags will be used for packaging. If you need a tray for such orders, the tray cost would be additional \$15. Please tick below if you need it.
 I need band tray at additional cost
4. All custom orders will take 3-4weeks for delivery. Custom orders can not be cancelled and are not returnable.
5. Please visit www.modortho.com for more details

Custom welding instructions or remarks if any:
